3M™ Dry Guide Coat | 3M United States

This stuff works great, easily as good as the 3M guide coat but you get a whole lot more for less money. Apply with the applicator in a back and forth or circular motion until your filler or primer is darkened, then block sand and you will see where your high spots and low spots and what needs more work.

Guide Coat is an aerosol coating that helps detect low spots, sand scratches or other minor imperfections prior to sanding primer. Guide Coat Black provides a visual guide to a smooth surface when sanding most primers. The quick drying formula won't clog sandpaper.

Will NEVER go back to 3M guide coat. This stuff is the shiz!!! Double the amount of powder, way blacker, half the cost. Also, if using for wet sanding it doesn't leave a film that makes it hard to sand like the 3M powder does. Yes, it makes a mess when wet sanding but makes life so much easier and mops up easily.
