Changing female literacy practices in Algeria : empirical ...

The author endeavors to take a look at the literacy practices and their theoretical implications for empowering women in Algeria. To date, there are no empirical studies on adult female literacy in Algeria that focus on the cultural construction of gender and empowerment.

Advancing Gender Equality: Promising Practices - UN Women

The importance of education, how literacy improves lives. One of the ways in which Plan International UK aims to improve global literacy statistics is by focusing on the importance of education, particularly in communities where opportunities to develop literacy skills are less available to girls. 15 million girls will never have the opportunity to learn to read and write in primary school - this is why we focus on supporting girls and their communities to end gender inequality in education.

Changing Female Literacy Practices in Algeria : Empirical Study on Cultural Construction of Gender and Empowerment / From an ethnological standpoint, this study contends that the construction and implementation of a gender-based literacy program that empowers adult education learners in rural or semi-rural (hybrid) areas in Algeria must consider the context of the Arabic-Islamic tradition. In ... The literacy rates for males increased from 56% in 1981 to nearly 76% in 2001. The corresponding change in female literacy rate from 30 to 54%. On the whole the decline on gender gap peaked in 1981 at 26.6% and was 21.7% in 2001 is less impressive. The interstate variation in literacy rate for males was much lower in comparison to females.

International Literacy Day, which takes place every year to promote worldwide literacy, is organized by United Nations Educational, Scientific, and Cultural Organizations (UNESCO). In the past 50 years, a lot of progress has been made toward a more literate world.

Gender Discrimination in India (6 Major Causes)

The recent report on the State of the World's Mothers by Save the Children (Save the Children, 2000) has identified the adult female literacy rate (the percentage of women over the age of 15 years who can read and write), as one of the 10 key indicators to assess 'women's well-being'. It is estimated that two-thirds of the world's 960 million illiterate adults are women.

Digital literacy looks beyond functional IT skills to describe a richer set of digital behaviours, practices and identities. What it means to be digitally literate changes over time and across contexts, so digital literacies are essentially a set of academic and professional situated practices supported by diverse and changing technologies.

Female genital mutilation (FGM) refers to "all procedures involving partial or total removal of the female external genitalia or other injury to the female genital organs for non-medical reasons." [1] FGM is a violation of girls' and women's human rights. While the exact number of girls and women worldwide who have undergone FGM remains unknown, at least 200 million girls and women have ...
