Cisco Unified Real-Time Monitoring Tool - Download

The Cisco Unified Real-Time Monitoring Tool Administration Guide provides information for network administrators who are responsible for managing and supporting Cisco Unified Communications Manager, Cisco Unified Communications Manager Business Edition, and Cisco Unity Connection.

For many moons the Cisco Unified Communications Manager (CUCM) Real Time Monitoring Tool (RTMT) has been a staple for CUCM administrators. I have always found the tool to be very useful and it has become increasingly powerful over the years. Recently, I have become remiss in my duties and haven't paid as close attention as I should have to some of the niftier features of RTMT.

A vulnerability in Real Time Monitoring Tool (RTMT) web application of Cisco Unified Communications Manager (Cisco Unified CM) could allow an unauthenticated, remote attacker to access several files related to the RTMT application. The vulnerability is due to insufficient authentication enforcement. An attacker could exploit this vulnerability by accessing a specific URL related to the RTMT ...

Cisco Unified Real-Time Monitoring Tool Administration ...

Cisco Unified Real-Time Monitoring Tool is a Shareware software in the category Miscellaneous developed by Cisco Systems. The latest version of Cisco Unified Real-Time Monitoring Tool is currently unknown. It was initially added to our database on 12/18/2014. Cisco Unified Real-Time Monitoring Tool runs on the following operating systems: Windows.

Website: Go to site: Description: Cisco Real-Time Monitoring Tool (RTMT) is software for monitoring status and performance of Cisco Unified Communications Manager (UCM) systems and Computer Telephony Integration (CTI) applications.

The Cisco Unified Real-Time Monitoring Tool (RTMT) runs as a client application on your local PC and monitors real-time behavior of your system components. The client can be installed by downloading the file from CUCM Application -> Plugins page. It is available for both Windows- and Linux-based PCs or laptops.
