Linda Nochlin's seminal essay on women artists is widely acknowledged as the first real attempt at a feminist history of art. Nochlin refused to handle the question of why there had been no great women artists on its own, corrupted, terms. Instead, she dismantled the very concept of greatness, unravelling the basic assumptions that had centred a male-coded genius in the study of art. With unparalleled insight and startling wit, Nochlin laid bare the acceptance of a white male viewpoint in art historical thought as not merely a moral failure, but an intellectual one. Freedom, as she sees it, requires women to risk entirely demolishing the art worlds institutions, and rebuilding them anew in other words, to leap into the unknown. In this stand-alone anniversary edition, Nochlin's essay is published alongside its reappraisal, *Thirty Years After*. Written in an era of thriving feminist theory, as well as queer theory, race and postcolonial studies, *Thirty Years After* is a striking reflection on the emergence of a whole new canon. With reference to Joan Mitchell, Louise Bourgeois, Cindy Sherman and many more, Nochlin diagnoses the state of women and art with unmatched precision and verve. *Why Have There Been No Great Women Artists?* has become a slogan and rallying cry that resonates across culture and society; Dior even adopted it in their 2018 collections. In the 2020s, at a time when certain patriarchal values are making a comeback, Nochlin's message could not be more urgent: as she herself put it in 2015, there is still a long way to go.

"It's official. That thing that classic art has been missing is a chubby reclining kitty." —The Huffington Post Internet meme meets classical art in Svetlana Petrova's brilliant *Fat Cat Art*. Featuring her twenty-two-pound, ginger-colored cat Zarathustra superimposed onto some of the greatest artworks of all time, Petrova's paintings are an Internet sensation. Now fans will have the ultimate full-color collection of her work, including several never-before-seen pieces, to savor for themselves or to give as a gift to fellow cat lovers. From competing with Venus's sexy reclining pose (and almost knocking her off her chaise lounge in the process) in Titian's *Venus of Urbino*, to exhibiting complete disdain as he skirts away from God's pointing finger in Michelangelo's *Creation of Adam*, Zarathustra single-handedly rewrites art history in the way that only an adorable fat cat can.

The woman in Leonardo da Vinci's work gazes out from the canvas with a quiet serenity. But what lies behind the famous smile? The full-page colour plates portray the *Mona Lisa* in close-up photographs, while Serge Bramly, the author, explores its shadowy history and the fascination the painting has engendered.

In a world filled with great museums and great paintings, Leonardo da Vinci's Mona Lisa is the reigning queen. Her portrait rules over a carefully designed salon, one that was made especially for her in a museum that may seem intended for no other purpose than to showcase her virtues. What has made this portrait so renowned, commanding such adoration? And what of other works of art that continue to enthrall spectators: What makes the Great Sphinx so great? Why do iterations of The Scream and American Gothic permeate nearly all aspects of popular culture? Is it because of the mastery of the artists who created them? Or can something else account for their popularity? In *Famous Works of Art—And How They Got That Way*, John B. Nici looks at twenty well-known paintings, sculptures, and photographs that have left lasting impressions on the general public. As Nici notes, there are many reasons why works of art become famous; few have anything to do with quality. The author explains why the reputations of some creations have grown over the years, some disproportionate to their artistic value. Written in a style that is both entertaining and informative, this book explains how fame is achieved, and ultimately how a work either retains that fame, or passes from the public consciousness. From ancient artifacts to a can of soup, this book raises the question: Did the talent to promote and publicize a work exceed the skills employed to create that object of worship? Or are some masterpieces truly worth the admiration they receive? The creations covered in

this book include the Tomb of Tutankhamun, Botticelli's Birth of Venus, Raphael's Sistine Madonna, El Greco's The Burial of Count Orgaz, Rodin's The Thinker, Van Gogh's Starry Night, and Picasso's Guernica. Featuring more than sixty images, including color reproductions, Famous Works of Art—And How They Got That Way will appeal to anyone who has ever wondered if a great painting, sculpture, or photograph, really deserves to be called "great."

The old artists, then, were plain and popular in the more fundamental or (if you will) lower parts of their personality. But the typical modern artist sets out to be a separate and fantastic sort of creature, who feeds and feels in a strange manner of his own. Compare Velazquez with Whistler; compare Shakespeare with Shaw; compare even Addison with Stevenson. Whistler professed to be a butterfly, feasting on strange flowers and following incalculable flights; Stevenson was called by many of his friends an elf; and though this did not mean that he was inhumane, it did mean that he was in a manner disembodied. Bernard Shaw is certainly a fairy: and an Irish fairy, which is worse. Shakespeare, like the Shepherd in *Io/aizt/ze*, was only a fairy down to the waist. He would undoubtedly, to quote the same work of art, have left his legs kicking behind if he had tried to get through the keyhole. Ben Jonson drinking ale was exactly like Ben Bolt drinking ale; though it might only move Ben Bolt to confused memories of Alice, and might inspire Ben Jonson to offer his lady the disinterested

advice that she should drink only with her eyes. But faddists and fairies wish to draw their very sustenance differently; tee totalers live on lemonade and elves upon dew, which I should think would be more sustaining.
