

## Access Free Ib Sl Paper 1 2013 Markscheme

Eventually, you will definitely discover a further experience and ability by spending more cash. still when? complete you resign yourself to that you require to get those every needs later having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will lead you to comprehend even more going on for the globe, experience, some places, when history, amusement, and a lot more?

It is your utterly own grow old to feint reviewing habit. accompanied by guides you could enjoy now is **Ib Sl Paper 1 2013 Markscheme** below.

### ADA - LONDON PATEL

Rock Engineering and Rock Mechanics: Structures in and on Rock Masses covers the most important topics and state-of-the-art in the area of rock mechanics, with an emphasis on structures in and on rock masses. The 255 contributions (including 6 keynote lectures) from the 2014 ISRM European Rock Mechanics Symposium (EUROCK 2014, Vigo, Spain, 27-29 Ma

From ancient to modern times, sexualised war violence against women was tolerated if not encouraged as a means of reward, propaganda, humiliation, and terror. This was and is in defiance of international laws that have criminalised acts of sexualised war violence since the 18th century. Ad hoc international tribunals have addressed especially war rape since the 15th century. The International Criminal Court (ICC), however, is the first independent, permanent, international criminal court that recognises not only war rape but also sexual slavery and other sexualised crimes as crimes against humanity, war crimes, and acts of genocide in its statute and supporting documents. This book explores how the ICC definitions of rape and forced marriage came about, and addresses the ongoing challenge of how to define war rape and forced marriage in times of armed conflict in a way that adequately reflects women's experiences, as well as the nature of the crimes. In addition to deepening the understanding of the ICC negotiations of war rape and forced marriage, and of the crimes themselves, this volume highlights relevant factors that need to be considered when criminalising acts of sexualised war violence under international law. Sexualised Crimes, Armed Conflict and the Law draws on feminist and constructivist theories and offers a comprehensive theoretical and empirical examination of the definition of rape and forced marriage. It presents the latest state of knowledge on the topic and will be of interest to researchers, academics, policymakers, officials and intergovernmental organisations, and students in the fields of post-conflict law and justice, international law, human rights law, international relations, gender studies, politics, and criminology.

Developed with the IB for the new 2011 English A syllabus, this fully comprehensive course book is already used and loved in hundreds of schools worldwide. Containing unparalleled insight into IB assessment and fully covering language in cultural contexts, it will concretely equip your students to tackle the course and assessments.

No fewer than 10 new chapters have been added, and the entire book has been restructured to reflect the American Board of Psychiatry and Neurology's Content Outline for the Certification Examination in Forensic Psychiatry, thus facilitating its use in preparing for certification or maintaining certification.

This book presents advances in the field of optical networks - specifically on research and applications in elastic optical networks (EON). The material reflects the authors' extensive research and industrial activities and includes contributions from preeminent researchers and practitioners in optical networking. The authors discuss the new research and applications that address the issue of increased bandwidth demand due to disruptive, high bandwidth applications, e.g., video and cloud applications. The book also discusses issues with traffic not only increasing but becoming much more dynamic, both in time and direction, and posits immediate, medium, and long-term solutions throughout the text. The book is intended to provide a reference for network architecture and planning, communication systems, and control and management approaches that are expected to steer the evolution of EONs.

This volume presents innovative and contemporary methodologies and intervention protocols for the enhancement of positive psychological attributes in multicultural professional and organizational contexts. Most methods, models and approaches that underpin positive psychological interventions are confined to clinical samples, closed systems or monocultural contexts, which restrict their applicability to particular contexts. Extensive practical intervention protocols, designs and methods which usually accompany first draft intervention papers are condensed into brief paragraphs in final manuscripts or removed in their entirety. This, in turn, reduces their potential for replicability

or adoption by consumers, practitioners, or industry. This volume develops guidelines for enhancing positive psychological attributes, such as positive moods (e.g. positive affect; life satisfaction), strengths (e.g. gratitude; humour), cognitions (e.g. hope; optimism) and behaviours (e.g. emotional regulation; positive relationship building) within various multicultural contexts. Thereby, it shows how positive psychology interventions can be replicated to a wide-range of contexts beyond those in which they were developed.

The Antarctic and Southern Ocean are hotspots for contemporary endeavours to oversee 'the last frontier' of the Earth. The Handbook on the Politics of Antarctica offers a wide-ranging and comprehensive overview of the governance, geopolitics, international law, cultural studies and history of the region. Four thematic sections take readers from the earliest human encounters to contemporary resource exploitation and climate change. Written by leading experts, the Handbook brings together the very best interdisciplinary social science and humanities scholarship on the Antarctic and Southern Ocean.

International Perspectives on Equality, Diversity and Inclusion examines the complex nature of equality, diversity and inclusion in the world of work through interdisciplinary, comparative and critical perspectives.

These days, it is easy to be cynical about democracy. Even though there are more democratic societies now (119 and counting) than ever before, skeptics can point to low turnouts in national elections, the degree to which money corrupts the process, and the difficulties of mass participation in complex systems as just a few reasons why the system is flawed. The Occupy movement in 2011 proved that there is an emphatic dissatisfaction with the current state of affairs, particularly with the economy, but, ultimately, it failed to produce any coherent vision for social change. So what should progressives be working toward? What should the economic vision be for the 21st century? After Occupy boldly argues that democracy should not just be a feature of political institutions, but of economic institutions as well. In fact, despite the importance of the economy in democratic societies, there is very little about it that is democratic. Questioning whether the lack of democracy in the economy might be unjust, Tom Malleson scrutinizes workplaces, the market, and financial and investment institutions to consider the pros and cons of democratizing each. He considers examples of successful efforts toward economic democracy enacted across the globe, from worker cooperatives in Spain to credit unions and participatory budgeting measures in Brazil and questions the feasibility of expanding each. The book offers the first comprehensive and radical vision for democracy in the economy, but it is far from utopian. Ultimately, After Occupy offers possibility, demonstrating in a remarkably tangible way that when political democracy evolves to include economic democracy, our societies will have a chance of meaningful equality for all.

1. The OPSC General Studies I Preliminary Examination is a complete study guide 2. The book is divided into 8 main Sections 3. Solved Papers and 5 Crack Sets for practice 4. Easy to understand Language and Student friendly content for easy learning Odisha Public Service Commission has recently released a notification announcing 392 vacancies for Group A and Group B posts under Odisha Civil Services. Interested candidates must have a bachelors' degree from the recognized institutions. The revised edition of OPSC General Studies I Preliminary Examination serves as complete study guide for those who are appearing for the examination. The book is divided into 8 Main Sections under which each section either divided into Sub Section or Chapters for the complete preparation. Apart from all the theoretical studies, this book also focuses on the practice portion of candidates by providing Solved Papers and 5 Crack Sets for practice to get exact idea paper the pattern. Providing a complete coverage of the latest syllabus of OPSC Paper I, this book helps to score best in the upcoming OPSC prelims 2021. TOC Solved Papers (2019-2015), HISTORY OF INDIA AND INDIAN NATIONAL MOVEMENT, GEOGRAPHY, INDIAN POLITY AND GOVERNANCE, INDIAN ECONOMY, ENVIRONMENTAL ECOLOGY, SCIENCE, GENERAL KNOWLEDGE, ODISHA: ABOUT THE STATE, 5 crack sets.

More extensive regulations, new technologies, and new means of communication have significant-

ly changed the financing landscape for startups and small to medium-sized companies (SMEs). This volume provides a contemporary research-based overview of the latest trends in entrepreneurial finance and outlines expected future developments. Starting with the status quo in market regulations and the financing structure of SMEs, it addresses a broad range of new financing alternatives for innovative startups (e.g. business angel financing, venture capital and corporate venture capital), as well as recent social phenomena (e.g. crowdfunding and initial coin offerings (ICOs)). Incorporating qualitative, quantitative and mixed analytical methods, the book contributes to a better understanding of the financing world by reflecting both the researcher's and the practitioner's perspective.

This volume presents a unique interdisciplinary approach, drawing on expertise in both the natural and social sciences. A primary goal is to present a scientific and socially integrated perspective on place-based community engagement, extreme weather, and health. Each year extreme weather is leading to natural disasters around the world and exerting huge social and health costs. The International Monetary Fund (2012) estimates that since 2010, 700 worldwide natural disasters have affected more than 450 million people around the globe. The best coping strategy for extreme weather and environmental change is a strong offense. Communities armed with a spatial understanding of their resources, risks, strengths, weaknesses, community capabilities, and social networks will have the best chance of reducing losses and achieving a better outcome when extreme weather and disaster strikes.

An ideal reference guide to introducing the IB Diploma in your school.

This volume presents the Late Bronze Age pottery from in and around House X, a large Minoan house at Kommos situated not far from the sea in South-Central Crete. This volume is richly illustrated with drawings, photos, and tables of data. Rutter's contribution complements the publication of the architecture, stratigraphy, and small finds in Part 1 (Shaw and Shaw, eds., 2012). Together, this pair of volumes offers a conclusion to a series of monographs (volumes I-IV) previously published about the site (Shaw and Shaw, eds., 1995-2006). The Kommos series is now completed by the two-volume publication on House X.

This magistral treatise approaches the integration of psychology through the study of the multiple causes of normal and dysfunctional behavior. Causality is the focal point reviewed across disciplines. Using diverse models, the book approaches unifying psychology as an ongoing project that integrates genetics, experience, evolution, brain, development, change mechanisms, and so on. The book includes in its integration free will, epitomized as freedom in being. It pinpoints the role of the self in causality and the freedom we have in determining our own behavior. The book deals with disturbed behavior, as well, and tackles the DSM-5 approach to mental disorder and the etiology of psychopathology. Young examines all these topics with a critical eye, and gives many innovative ideas and models that will stimulate thinking on the topic of psychology and causality for decades to come. It is truly integrative and original. Among the topics covered: Models and systems of causality of behavior. Nature and nurture: evolution and complexities. Early adversity, fetal programming, and getting under the skin. Free will in psychotherapy: helping people believe. Causality in psychological injury and law: basics and critics. A Neo-Piagetian/Neo-Eriksonian 25-step (sub)-stage model. Unifying Causality and Psychology appeals to the disciplines of psychology, psychiatry, epidemiology, philosophy, neuroscience, genetics, law, the social sciences and humanistic fields, in general, and other mental health fields. Its level of writing makes it appropriate for graduate courses, as well as researchers and practitioners.

Um erfolgreich forschend lernen zu können, müssen Schülerinnen und Schüler bestimmte Handlungsweisen erlernen und einüben. In einer Prä-Post-Studie zum Strategielernen wurden das hypothesengeleitete Experimentieren und die Control-of-Variables-Strategie zunächst vermittelt. Danach sollten diese Strategien in zwei Experimentierumgebungen, unterstützt durch z.B. Prompts, angewandt werden. Da sowohl reale Experimente als auch Computersimulationen zum Strategielernen eingesetzt werden können, wurden vier Treatmentgruppen (real-real, real-virtuell, virtuell-real,

virtuell-virtuell) miteinander verglichen. Neben Kontrollvariablen wie kognitive Fähigkeiten und Motivation wurden prä-post das Fachwissen, Wissen zum Experimentieren und Wissen zum Strategieinsatz gemessen. Während des Experimentierens wurden die Schülerinnen und Schüler (8. Klasse, Gymnasium, NRW) beobachtet, um herauszufinden, inwiefern sich das Arbeiten mit realen und virtuellen Experimenten unterscheidet und inwiefern diese Unterschiede eventuelle Unterschiede im Lernzuwachs erklären können. Die Ergebnisse zeigen, dass trotz sehr unterschiedlichen Arbeitens mit realen und virtuellen Experimenten alle Treatmentgruppen deutliche Lernzuwächse aufzeigen.

Learn how to provide dental care to any patient, regardless of existing medical conditions. Little and Falace's *Dental Management of the Medically Compromised Patient*, 9th Edition, has been thoroughly revised to give you the information you need to assess common problems, and make safe and healthy dental management decisions. The new addition includes expanded coverage of women's health issues and introduces a process for developing a medical-risk source. Also, each chapter features vivid illustrations and well-organized tables to give you in-depth details and overall summaries to help you get to the root of your future patients' needs. Logical organization of conditions makes it easy for you to understand and follow the material as you prepare to treat patients. Standardized assessment process helps you to ascertain the severity and stability of common medical disorders. Dental management summary table summarizes important factors for consideration in the dental management of medically compromised patients. Over 400 color images provide a visual guide and highlight key information. Dental management box in each chapter allows you to locate key information for evaluating a medically compromised patient. NEW! Thoroughly revised content provides you with the most current, evidence-based information you need to make dental management decisions. NEW! Evidence-based process for creating a medical-risk score enables you to determine whether the benefit of treatment outweighs the risk of a complication. NEW! Expanded coverage of women's health issues addresses issues specific to women that can impact dental management.

No one can deny the significance attributed to the issue of reconciling work and private life by contemporary society, the EU and other international organisations. Its relevance is evident in the multifaceted nature of this topic and the need for each party to the employment contract to strike a proper balance between professional and personal responsibilities, based on the assumption that people can successfully harmonise their work with life. Following on from these considerations, this volume provides a detailed analysis of work-life balance and its regulation in a number of EU countries, emphasizing the consequences that the current economic crisis has brought about in this field.

IB Mandarin Chinese B (Ab Initio) is for beginners, for example, students whose first language is English but have a little experience in learning Chinese or have no experience. It is only available in Standard Level. By referring HSK (version 2009 and the latest version 2021), we edited a series of Chinese Vocabulary for those who are studying Chinese or preparing international examinations, such as IB, SAT, AP, IGCSE, GCSE Chinese. Combining our 26 years' experience in Teaching and editing our own materials, here is the "LIFE SAVING" book called by many students for their exams. The book give a quick revision for your coming exam! Thanks for your support for us creating better contents for you! It takes our years' painful effort to edit. Grab it!

Written specifically for the LPN/LVN student, this Third Edition of *Introductory Maternity and Pediatric Nursing* provides clear, well-illustrated, and clinically relevant coverage of pregnancy, birth, and pediatrics to help student's master key clinical and critical thinking skills and prepare for the NCLEX® exam and successful practice. This Third Edition is enhanced by new care plans in the clinical chapters, new case studies, a new art program, a new pronunciation guide, and more. Online video clips of live births, Cesarean delivery, breastfeeding, pediatric milestones, the well child, and the hospitalized child bring concepts to life in dynamic full color. To ensure student mastery of key topics, an integrated workbook at the end of each chapter includes NCLEX-style questions (many NEW to this edition), study activities, and critical thinking: "What Would You Do?" exercises.

Wise, often funny, sometimes heartbreaking, Persepolis tells the story of Marjane Satrapi's life in Tehran from the ages of six to fourteen, years that saw the overthrow of the Shah's regime, the triumph of the Islamic Revolution and the devastating effects of war with Iraq. The intelligent and outspoken child of radical Marxists, and the great-granddaughter of Iran's last emperor, Satrapi bears witness to a childhood uniquely entwined with the history of her country. Persepolis paints an unforgettable portrait of daily life in Iran and of the bewildering contradictions between home life and

public life. Amidst the tragedy, Marjane's child's eye view adds immediacy and humour, and her story of a childhood at once outrageous and ordinary, beset by the unthinkable and yet buffered by an extraordinary and loving family, is immensely moving. It is also very beautiful; Satrapi's drawings have the power of the very best woodcuts.

"A riveting look at the birth of a new science." —Daniel H. Pink, author of *Drive* When he was eight years old, Dan Hurley was labeled a "slow learner" because he still couldn't read. Three years later, he had become a straight A student. Until the publication of a major study in 2008, psychologists believed that intelligence is fixed at birth, that IQ is like a number tattooed on the soul. The new study showed that people can increase their "fluid" intelligence through training. Hurley, who grew up to become an award-winning science journalist, first explored the topic in *The New York Times Magazine*. In *Smarter*, he digs deeper by meeting with the field's leading researchers—and becoming a human guinea pig. After just three months of playing computer brain-training games, joining a boot-camp exercise program, learning to play the Renaissance lute, practicing mindfulness meditation and even getting his brain zapped in the name of science, Hurley improved his fluid intelligence by sixteen percent. With humor and heart, *Smarter* chronicles the roiling field of intelligence research and delivers practical findings to sharpen the minds of children, young adults, seniors, and those with cognitive challenges.

The idea of combining drugs and diagnostics in oncology is not new. When the selective estrogen receptor modulator tamoxifen was developed in the 1970's for the treatment of breast cancer a positive correlation between receptor status and treatment outcome was found. As a result of this research, it was suggested to use the estrogen-receptor assay as a diagnostic test for selection of patients for tamoxifen treatment. Despite this suggestion was put forward nearly 40 years ago the adaptation of the drug-diagnostic co-development model has been relatively slow and it is only within the last decade that it has gained more widespread acceptance. The parallel development of the monoclonal antibody trastuzumab (Herceptin®, Roche/Genentech) and the immunohistochemistry assay for HER2 protein overexpression (HercepTest™, Dako) seems to have served as an inspiration to a number of stakeholders such as pharma and diagnostic companies, regulatory agencies, and academia. In recent years we have seen an increasing number of oncology drug development projects that have taken advantage of the drug-diagnostic co-development model, as outline below. Most of the new targeted anti-cancer drugs that have been introduced in recent years, such as BRAF-, ALK-, EGFR- and HER2-inhibitors, are more or less all a product of the drug-diagnostic co-development model. These drugs have shown remarkable high response rates in selected groups of patients within cancer diseases with great unmet medical needs. This Research Topic on Drug-Diagnostic Co-Development in Oncology aims to provide you with an insight into some of the diverse activities that constitute this new research area.

Edeo (Educational Video Online Courses) is one of the pioneering online Courses Creators. We provide Contents and Solutions, online, offline, in Classroom presentation or online lessons, group assignments or personal learning management. We welcome Teachers to join our group and marketing networks (more than 1 million users in our networks and social media, YouTube, Udemy, Amazon, iBook, Teachlr, Google Books, Rakuten Kobo etc.) for: - developing and publishing books, teaching materials - creating and marketing online Video - Hosting online live courses Our Publications including: KDP: Amazon Kindle Books, ebook and Paperback. Udemy: Online Video Courses hosted in Udemy, lifetime access. Quiz: Online Quiz, auto grading and explanations, hosted on Udemy, lifetime access. Skype: Online Live Course via Skype. YouTube: YouTube Live broadcasting. Topics Covering: covering from Kindergarten, YCT (Youth Chinese Test), HSK (Chinese Proficiency Test), IGCSE Chinese, A1, A2 Chinese, IB Chinese, SAT Chinese, AP Chinese, IB Chinese, etc. This is our past 25 years painstaking efforts based on our firsthand experience to teach foreigners. "Share with You What We Know Best" is our Slogan. We start with LEGOO Mandarin and now expand the system into other topics: Bahasa Malaysia, IT eCommerce, Accounting and Finance, Tai Chi Fitness and Qi Gong. You can learn anytime anywhere!

The inaugural edition of *The American Psychiatric Association Publishing Textbook of Forensic Psychiatry* was the first of its kind, and subsequent editions have raised the bar, earning it a spot as a leading text in this fascinating subspecialty of psychiatry. This new, third edition is the product of a painstaking and exhaustive revision process that resulted in a significantly expanded and restructured work. This edition is a thorough review of the field yet is flexible enough to be useful to a diverse audience. Because the topics in and structure of this edition were informed by the American Board of Psychiatry and Neurology's Content Outline for the Certification Examination in Forensic Psychiatry, it can be used as a core text during forensic psychiatry fellowship training or

as a review text to prepare for the certification or maintenance of certification exam. An excellent resource on legal issues in clinical practice, the book will also be an invaluable reference for general psychiatrists, who frequently encounter complicated forensic issues, such as informed consent, confidentiality, and the physician-patient relationship. The editors, two of the foremost experts in forensic psychiatry, faced the challenge of creating a text that accurately and fully reflects the latest advances in both the law and psychiatry, while enhancing learning. This comprehensive, yet accessible volume does just that. Every chapter has been revised, and 10 new chapters address topics of critical importance -- presented in a structure that facilitates study: The book highlights the American Academy of Psychiatry and the Law's Landmark Cases in Forensic Psychiatry, listing the cases at the beginning of each chapter and highlighting them within the text. This helps readers master the key points in all topic areas, while fostering understanding of the impact of the evolution of legal principles in statutory and case law in forensic psychiatry. A new section on criminal justice includes chapters that address evaluations of competencies in the criminal justice system, assessment of criminal responsibility, and the role of psychiatry in death penalty cases. An entire section is devoted to forensic psychiatric issues involving children and adolescents, including general principles of evaluation of juveniles, evaluations of juveniles in civil law, and evaluations of juveniles in the criminal justice system New and revised chapters address the impact of technology on forensic psychiatry, including neuroimaging, the Internet, and telepsychiatry The book thoroughly addresses forensic assessments of all kinds, and introduces two new and critical chapters on risk assessment of suicide and violence Finally, an index of Landmark Cases and an extensive subject index provide the foundational knowledge and navigational tools to identify relevant cases and topics quickly and easily. The American Psychiatric Association Publishing Textbook of Forensic Psychiatry takes the reader from fundamental concepts to cutting-edge research. Practicing general and forensic psychiatrists, psychiatry residents, and those enrolled in forensic fellowship programs will come to depend on both its accessibility and its rigor.

The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty. The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place. Emphasising the impact of international human rights principles and evidence of abuse, the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles, political and cultural, to further abolition. They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness, discrimination and conviction of the innocent: all violations of the right to life. They provide further evidence of the lack of a general deterrent effect; shed new light on the influence and limits of public opinion; and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns. This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel, inhuman and degrading. Widely relied upon and fully updated to reflect the current state of affairs worldwide, this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal.

2021 Updates, View more amazing courses and Publications Edeo (Educational Video Online Courses) is one of the pioneering online Courses Creators. A look at how the desire to improve international status affects Russia's and China's foreign policies Deborah Welch Larson and Alexei Shevchenko argue that the desire for world status plays a

key role in shaping the foreign policies of China and Russia. Applying social identity theory--the idea that individuals derive part of their identity from larger communities--to nations, they contend that China and Russia have used various modes of emulation, competition, and creativity to gain recognition from other countries and thus validate their respective identities. To make this argument, they analyze numerous cases, including Catherine the Great's attempts to westernize Russia, China's identity crises in the nineteenth century, and both countries' responses to the end of the Cold War. The authors employ a multifaceted method of measuring status, factoring in influence and inclusion in multinational organizations, military clout, and cultural sway, among other considerations. Combined with historical precedent, this socio-psychological approach helps explain current trends in Russian and Chinese foreign policy.

The analysis of urban development of the past twenty years presented in this maiden edition of the World Cities Report shows, with compelling evidence, that there are new forms of collaboration and cooperation, planning, governance, finance and learning that can sustain positive change. The Report unequivocally demonstrates that the current urbanization model is unsustainable in many respects. It conveys a clear message that the pattern of urbanization needs to change in order to better respond to the challenges of our time, to address issues such as inequality, climate change, informality, insecurity, and the unsustainable forms of urban expansion.

This a Full list of our latest courses and Publications at BEST price for my students! Please check and Enjoy your study. We provide Contents, Online System and Live Teaching Online ! Edeo (Educational Video Online Courses) is one of the pioneering online Courses Creators. We systematically

design LEGOO Mandarin, including PPT, PDF and Videos materials, covering from Kindergarten, YCT (Youth Chinese Test), HSK (Chinese Proficiency Test), IGCSE Chinese, A1, A2 Chinese, IB Chinese, SAT Chinese, AP Chinese, IB Chinese, etc. This is our past 25 years painstaking efforts based on our firsthand experience to teach foreigners. "Share with You What We Know Best" is our Slogan. We start with LEGOO Mandarin and now expand the system into other topics: Bahasa Malaysia, IT eCommerce, Accounting and Finance, Tai Chi Fitness and Qi Gong. You can learn anytime anywhere! In addition to be a Contents Creator, we also provide Online Systems, which can be easily integrated with your school or company online system or use separately. We are using Udemy and other more than 10 similar platforms for video courses marketing. The Amazon KDP, Google Books and Apple eBooks are platforms we publishing our textbooks in addition to our own platform. We provide consultancy service to save your time and give you the best tips on how to leverage your efforts using all these amazing platforms. Please contact us for quotations (very reasonable price). We can assign our trained teachers to conduct live lesson through Webinar, Skype and YouTube, Facebook at reasonable price.

This fascinating study explores the emergence of a significant Sunni community on the margins of Shia Iran and delineates a 'Sunni arc' stretching from Central Asia southwards through the Iranian provinces of Khorasan and Baluchistan.

This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change (IPCC) will again form the standard reference for all those concerned with climate change and its consequences, including students, researchers and policy makers in environmental science, meteorology, climatology, biology, ecology, atmospheric chemistry and environmental policy.

"The definition of psychotic spectrum disorders such as schizophrenia has evolved with changing nosology and scientific advancements over the last 200 years. Understanding both the historical evolution of the concept as well as recent changes reflected in the American Psychiatric Association's Diagnostic and Statistical Manual (DSM-5) as well as the National Institute of Health's (NIH) Research Domain Criteria (RDOC) framework are critical for informing current efforts to further update and refine the nosology of psychotic spectrum disorders. This chapter offers an overview of past classification schemes, current standards, and novel approaches to further improve the validity of these definitions through use of biomarkers, reverse nosologies, and digital phenotyping tools like smartphones and sensors"--

The landscape of international education has changed significantly in the last ten years and our understanding of concepts such as 'international', 'global' and 'multicultural' are being re-evaluated. Fully updated and revised, and now including new contributions from research in South East Asia, the Middle East, China, Japan, Australasia, and North America, the new edition of this handbook analyses the origins, interpretations and contributions of international education and explores key contemporary developments, including: internationalism in the context of teaching and learning leadership, standards and quality in institutions and systems of education the promotion of internationalism in national systems This important collection of research is an essential resource for anyone involved in the practice and academic study of international education, including researchers and teachers in universities, governmental and private curriculum development agencies, examination authorities, administrators and teachers in schools.
