Gaston Bachelard was a French philosopher who rose to some of the most prestigious positions in the French academy. His most important work is on poetics and on the philosophy of science. To the latter he introduced the concepts of epistemological obstacle and epistemological break (obstacle épistémologique et rupture épistémologique).

Gaston Bachelard (Author of The Poetics of Space)

The Poetics of Space, the seminal work of French philosopher Gaston Bachelard (1884 - 1962) mixes poetics, illusion and common images to localize some of our most abstract self-concepts. I should like to give the name of topoanalysis to this auxiliary of psychoanalysis.
