Most Common Reasons for Check Engine Light Coming On

The intended purpose of the "service engine soon" light is to warn the operator of the vehicle that a malfunction has been detected by sensors in the emissions system of the vehicle. There may be a major problem with the engine or one of its components, but it's usually a minor issue.

First Time I've Seen The F150's Service Engine Soon Light

I have a Ford Explorer 2003 with 93000 miles and the o/d light as well as the service engine soon light is on. From my research it seems this is a major problem that Ford refuses to address on the car mentioned.

Check engine light comes on when gas cap is loose or completely missing, spark plugs or plug wires are damaged, vehicle has a bad catalytic converter, oxygen sensor needs to be replaced. The appearance of a check engine light should not be neglected and reason behind such signs must be identified and fixed so that it couldn't lead to any major problem in the future.
