A walking bass line simply walks through the appropriate scale of each chord, one note per beat, hitting every beat of each measure. The walking bass line was developed by upright bassists like Ray Brown, Milt Hinton, Paul Chambers, and Ron Carter, but now it's also commonly played on the bass guitar. Creating a walking bass line is one of the more elusive art forms in the bass world, but if you understand how to put it together, step by step (pun intended), it won't seem so frightening.
